

Don't let the Hudson River / Black River Regulating District get away with this again!

This is nothing but the result of poor management by the District!  
They can't even follow their own Rules!

The Kicker is the District will require that this dock owner apply for a Permit before *any* repairs can be done!

**Call the Governor!**  
**Call your Senator!**  
**Call your Assemblyman!**

Let them know you are Mad as Hell and are not going to allow this to continue!
